Profile

Frontend Web Developer with a strong foundation in modern web technologies, specializing in building responsive, accessible, and user-focused interfaces. Experienced with React, TypeScript, and Tailwind CSS, and skilled in collaborating closely with backend developers to integrate APIs and deliver scalable, high-performance web applications. Passionate about clean code, performance optimization, and continuous learning.

Professional Experience

Freelancer

11/2023 – Present

- Developed responsive and user-friendly websites and web applications for clients across various industries.
- Built modern frontend interfaces using HTML, CSS, JavaScript, React.
- Converted UI/UX designs into fully functional, mobile-friendly web pages.
- Optimized website performance, accessibility, and cross-browser compatibility.
- Maintained and updated existing websites, implementing new features and fixing bugs.
- Managed projects independently, including planning, development, testing, and deployment.
